Bachelor of Computer Applications
Completed in 2021
- **Birla School Pilani, Pilani**
XII
Completed in 2017

PROJECT

Portfolio Website

Created a personal portfolio website to showcase skills, experiences, and projects. Website includes a professional overview of background, a portfolio section highlighting work, and a contact page for potential employers to reach out.

ToDo list

I developed a dynamic and interactive todo list application using HTML, CSS, and JavaScript. The application allows users to add, edit, and delete tasks. Implemented responsive design principles to ensure the application is accessible and user-friendly across various devices.
